

Dear Teacher,

Very grateful to you I would be,
If you would please do this favor for me.
I started this gift when _____ was small,
And plan to complete it by the time he is tall.
Each teacher who helps him along the way,
I hope will autograph—that is to say:
Please add a note, a picture, or song;
A special memory can never be wrong.
You have helped make him the person he is,
And you can take credit when they call him a whiz!
I will present this to him on graduation day—
In honor of you, who are so special to him today.
I don't know which direction he'll take—
North, south, east, or west;
But I do know he thinks his teachers are the best!

Thank You!
